

Diagun 3 Firmware Upgrade Steps

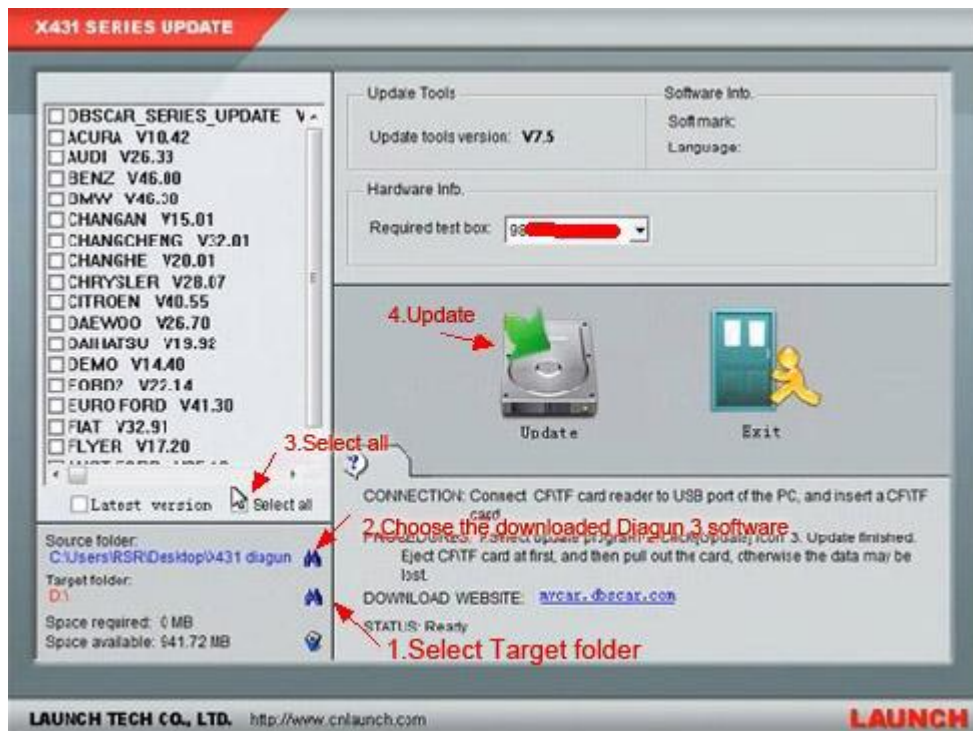

- 1) Get authorization from the seller (to get authorization, please provide us with Serial Number, country and the language you want as well as English language)
- 2) Browse www.dbscar.com to register Diagun 3.
- 3) Download the following software: Diaguniii Display, firmware upgrade package, DBSCAR_SERIES_UPDATE and car model software, then save them into the newly-created folder "X431 Diagun".

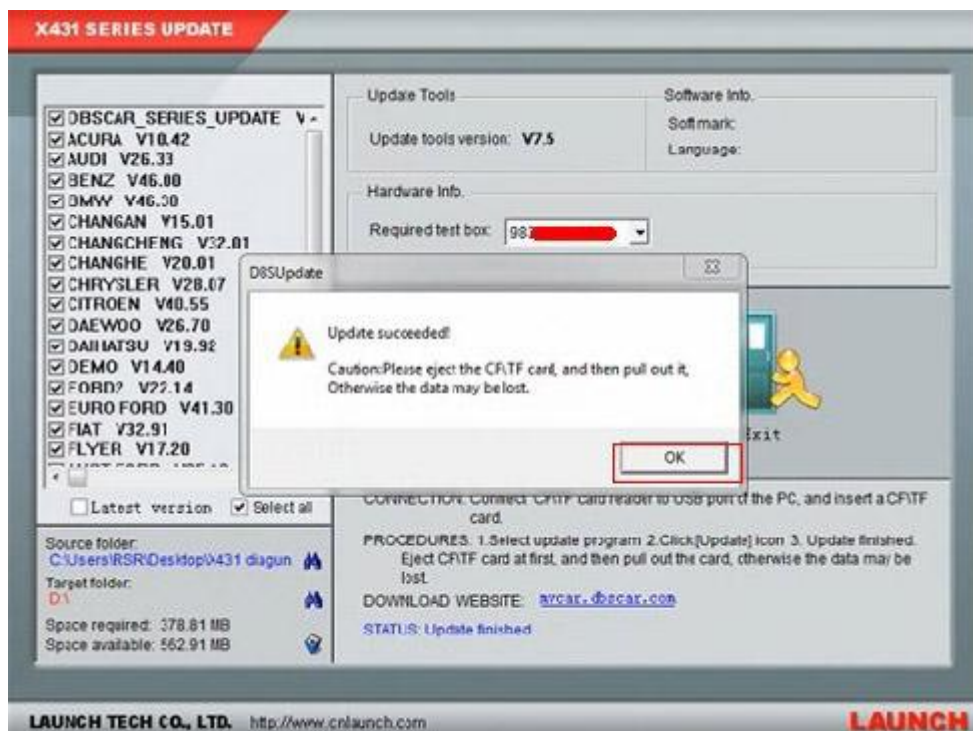

The screenshot shows the 'Download center' page on the DBSCAR website. The page has a navigation menu at the top with links for 'Homepage', 'Products', 'News center', 'Service User center', 'BBS', and 'About us'. Below the navigation, there is a breadcrumb trail: 'Homepage -> User center -> Download center'. A 'Product SN:' field is visible with a redacted value. The main content is a table of software items for download. The first three items are highlighted with a red box: 'Diagun111 DISPLAY', 'firmware upgrade package', and 'DBSCAR_SERIES_UPDATE'. The table has columns for 'Software name', 'Latest version', 'Upload date', 'Valid versions', 'Language', and 'Download'. A 'Navigation menu' is on the right side, listing various site sections. At the bottom, a status bar shows a download completion message: 'The dgisuzu_v12_31_IN_0019770.ZIP download has completed.' and buttons for 'Open', 'Open folder', and 'View downloads'.
