

ND900

Free chip (YS-01)

The professional duplicating machine, ND900 Pro, has been designed and built to keep pace with the evolution of transponder car keys.

The ND900 Pro key duplicator features the most innovative electronic components in the field of radio frequencies thus allowing easy detection, reading and cloning (duplication) of fixed code transponders and the identification of cryptographic transponder codes.

The major features of the ND900 Pro include the ability for copying of Crypto 42 type transponders and the Texas 4C and 4D transponders.

The ND900 Pro has been developed to cater for future developments and to keep up to date with the ever expanding technology of transponders within the automotive vehicle systems.

The ND900 Pro offers complete flexibility as once the main unit is purchased the functionality can be expanded by adding additional software.

The machine of the future for transponder developments, is the ND900 Pro....for professional locksmiths.

ND900 can directly copy all of 4D4C. (4C.4D=ID60.61 62 63. 64.65.66.67.68.69). Use FREE CHIP, The chip can be copied

repeatedly,

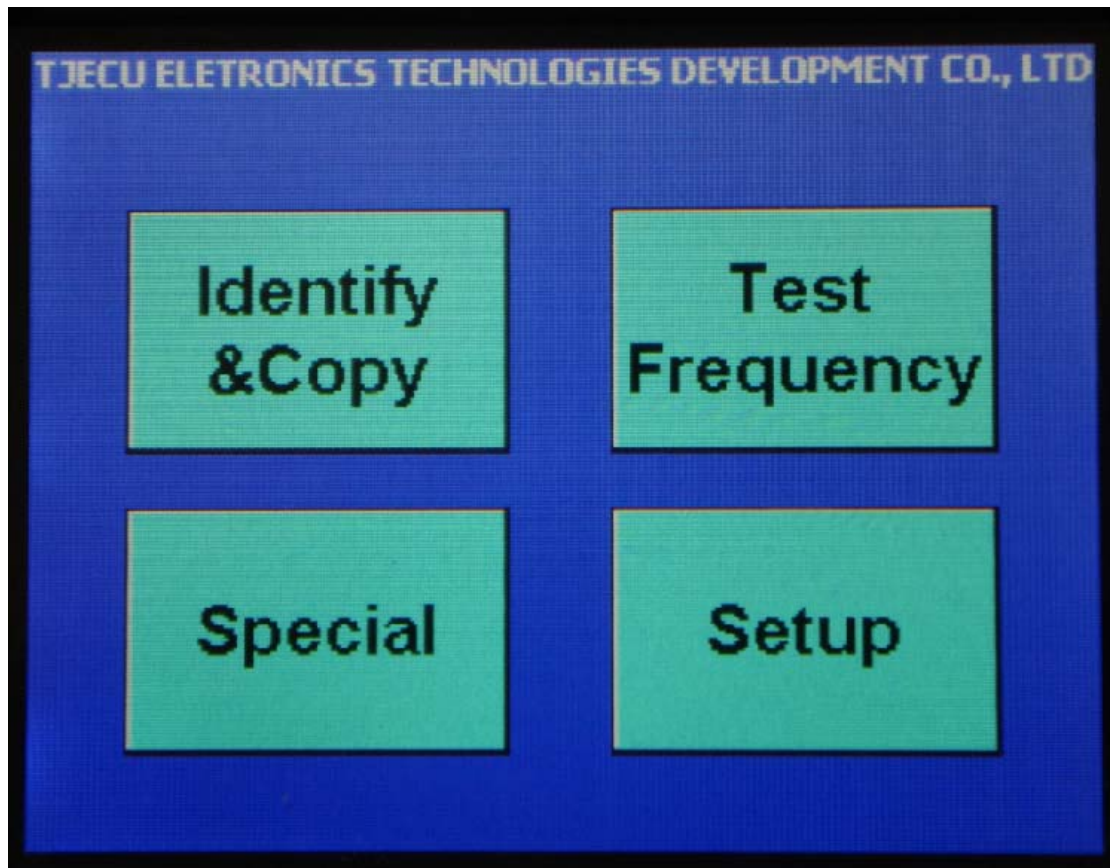

type YS-01, only chip.
